

ENVIRONMENTAL POLICY STATEMENT

Pristine London Ltd is committed to the management and minimisation of our operations and their impact on the environment and understand the importance of environmental issues to our business.

We are committed to achieving environmental best practice throughout our business activities by:

- Complying with environmental legislation and other requirements, such as approved codes of practice (Compliance Obligations);
- Assessing the environmental impact of all historic, current and future operations;
- Measuring and monitoring our environmental performance and undertaking activities to ensure the continual improvement and effectiveness of our Environmental Management System;
- Reducing the use of raw materials, energy and supplies;
- Communicating environmental aims and objectives to employees and external stakeholders;
- Liaising with the local community and participating in discussions about environmental issues;
- Minimising the waste, pollution and emissions produced by all of our business activities;
- Integrating environmental considerations into all business policy decisions;
- Expecting similar environmental standards from all suppliers and contractors;
- Raising awareness, encouraging participation and training employees in environmental matters;
- Communicating this policy and environmental commitments to our employees via the mandatory induction and customers and stakeholders via our company website.

Signed on behalf of Pristine London Limited.
